- Made in the UK

Product Description

A non-sticky, clear, vegan-friendly hand sanitiser. Effective at killing 99.99% of bacteria and enveloped viruses (Active Ingredient: 70% Ethanol).

Where to use

Effective hand sanitiser for environments where a high level of hand hygiene is required. Also for on-the-go use, and where soap and running water are not readily available. Suitable for use in healthcare, education, workplace areas, as well as many other key environments.

How to use

Apply a generous amount of Alcagel® onto the palms of hands, rub until dry. For best results use on visibly clean hands. Do not wash off after use.

Features	Benefits
70% alcohol formulation	Highly effective formulation kills 99.99% of bacteria and is also fully tested and proven to be yeasticidal and effective against enveloped viruses (99.99%).
Fast acting	Easily rubs across hands and is fast and simple to use as part of your hand hygiene routine and where soap and running water are not readily available.
Pleasant on hands	Smooth gel consistency and added moisturiser makes Alcagel® great for frequent use, and it doesn't leave an unpleasant residue on your hands.
No added fragrance or dye	Simple but highly effective formula is ideal for people who may be sensitive to fragrances or dyes.
No water required	Dries quickly on the hands without the need to rinse with water.

Safety Regulations

Alcagel® meets all current UK regulatory requirements for biocidal products.

Safety Data Sheet

Please refer to our Safety Data Sheet for information relating to Handling, First Aid, Disposal, Safety, Transport etc. The Safety Data Sheet can be downloaded [here](#).

Handling

Use biocides safely. Please refer to the Safety Data Sheet and individual product labels for further relevant safety information.

Shelf Life

Alcagel® Hand Sanitiser has a shelf life of 36 months.

Manufacturing Quality Assurance

Vanguard Chemicals is a division of Solar Medical & Chemical Ltd.

We have been producing Alcagel® for over 25 years, and take great pride in our manufacturing processes and quality control measures.

As the manufacturer we have complete control over the selection and sourcing of our raw materials. To this end we have done everything we can to ensure that the ingredients used in Alcagel® are 'vegan friendly' – and Alcagel® is not tested on animals.

Our manufacturing expertise extends to the stringent quality control measures that we have in place to ensure that every bottle of Alcagel® is exactly as it should be. **Alcagel® – hand sanitiser you can trust!**
